08  Arm and a leg
Nvidia’s purchase of Arm is the biggest semi-conductor takeover in history. Richard Swinburne ponders whether it’s a positive one.

10  Culture clash
Tracy King explores how different countries’ cultures have influenced each other in gaming, and looks to India for the next influence.

16  GeForce RTX 3080 review
Nvidia’s new graphics powerhouse is put through its paces in our comprehensive review.

27  Compact cooling
Alphacool’s new all-in-one cooler sports a 92mm radiator and fan, bringing liquid-cooling performance to compact cases.

40  Heatrippers
Threadripper CPUs need a powerful cooler. Antony Leather puts eight of the latest models to the test.

50  Flight sticks tested
Make the most of the new Microsoft Flight Simulator with a proper flight stick. Edward Chester takes six options for a spin.

66  A golden age of PC gaming
Far from PC gaming dying out, Rick Lane thinks we’ve never had it better.

68  Flying high
Microsoft has finally released a new version of its flight simulator, but has it been worth the wait?

74  Nvidia Ampere deep dive
A new architecture sits at the heart of Nvidia’s new RTX 3000 GPUs. Mark Simpson explains what makes these monsters tick.

82  Quick refresh
How fast is fast enough? Edward Chester explores the benefits of ever higher refresh rates and other factors that affect gaming monitors.

88  Extreme customisation
The space probe Sputnik inspired this compact, custom-built and laser-cut PC.

92  Hobby tech
Gareth Halfacree investigates the hidden costs of 3D printing, explores what RISC OS has to offer and thumbs through Computing Across America.

98  Cooling compatibility
Finding a waterblock for your CPU or graphics card can be trickier than you think, as Antony Leather found out.

114  404 error – GPU not found
The RTX 3080 has proved massively popular, selling out worldwide within hours on launch day. James Gorbold provides insight into just why.
